Outreach and Assistance for Socially Disadvantaged Farmers and Ranchers

This notice announces the availability of funds and solicits applications from eligible entities to compete for financial assistance through the Outreach and Assistance for Socially Disadvantaged Farmers and Ranchers Grant Program (OASDFR). Proposals for new awards AND requests for supplemental funding for existing awards will be accepted through this funding opportunity. This program will assist community-based organizations, higher education institutions and eligible tribal entities in providing outreach and technical assistance to socially disadvantaged farmers and ranchers. The overall goal of the OASDFR Program is to assist socially disadvantaged farmers and ranchers in a linguistically appropriate manner in owning and operating farms, ranches and non-industrial forest lands while increasing their participation in agricultural programs provided by USDA.

Deadline: December 21, 2011

America's Historical and Cultural Organizations

NEH offers two categories of grants for America's Historical and Cultural Organizations: planning and implementation grants. **Planning grants** are available for projects that may need further development before applying for implementation. This planning can include the identification and refinement of the project's main humanities ideas and questions, consultation with scholars, preliminary audience evaluation, preliminary design of the proposed interpretive formats, beta testing of digital formats, development of complementary programming, research, or the drafting of interpretive materials. **Implementation grants** support the final preparation of a project for presentation to the public. Applicants must submit a full walkthrough for an exhibition, or a prototype or storyboard for a digital project, which demonstrates a solid command of the humanities ideas and scholarship that relate to the subject. Applicants for implementation grants should have already finished most of the planning for their projects, including the identification of the key humanities themes, relevant scholarship, and program formats. For exhibitions, implementation grants can support the final stages of design development, but these grants are primarily intended for installation.

America's Historical and Cultural Organizations grants support • traveling exhibitions that are presented at multiple venues; • long-term exhibitions at one institution; • interpretive websites or other digital formats; • interpretation of historic places or areas; • reading and discussion programs; • panel exhibitions that incorporate complementary programming formats; and • other project formats that creatively engage audiences in humanities ideas

Deadline: January 11, 2012

Maximum Grant: \$1,000,000

America's Media Makers

Grants for America's Media Makers support projects in a range of formats, including interactive digital media and radio and television programs that engage the public in the humanities that explore stories, ideas, and beliefs in order to deepen our understanding of our lives and our world. Projects should encourage dialogue, discussion, and civic engagement, and they should foster learning among people of all ages. To that end, the Division of Public Programs urges applicants to consider more than one format for presenting humanities ideas to the public. Development grants enable media producers to collaborate with scholars to develop humanities content and format and to prepare programs for production. These grants cover a wide range of activities that include, but are not limited to, meetings and individual consultations with scholars, research, preliminary interviews, preparation of program scripts, designs for interactivity and digital distribution, and the creation of partnerships for outreach activities and public engagement with the humanities. Development grants should culminate in the refinement of a project's humanities ideas, and in a script, or a design document for (or a prototype of) digital media components or projects. Development grants should also yield a detailed plan for outreach and public engagement, in collaboration with a partner organization (or organizations).

National Leadership Grants

National Leadership Grants support projects that address challenges faced by the museum, library, and/or archive fields and that have the potential to advance practice in those fields. Successful proposals will seek innovative responses to the challenge(s) identified in the proposals, and will have national impact. The National Leadership Grant program accepts applications under four main categories: •Advancing Digital Resources—Support the creation, use, presentation, and preservation of significant digital resources as well as the development of tools to enhance access, use, and management of digital assets. •Research—Support research that investigates key questions that are important to museum, library, and archival practice. •Demonstration—Support projects that produce a replicable model or practice that is usable, adaptable, or scalable by other institutions for improving services and performance. •Library Museum Collaboration Grants—Support collaborative projects (between museums and/or libraries and other community organizations) that address the educational, economic, cultural, or social needs of a community. In 2012, a funding priority will be projects that

promote early learning. Applicants may choose to submit a Project Grant, Planning Grant, or National Forum Grant proposal in any of the above categories. •Project Grants support fully developed projects for which needs assessments, partnership development, feasibility analyses, prototyping, and other planning activities have been completed. •Planning Grants allow project teams to perform preliminary planning activities that could lead to a subsequent full project, such as needs and feasibility analyses, solidifying partnerships, developing project work plans, or developing prototypes or proofs of concept. Applications for Planning Grants must include at least one formal partner in addition to the lead applicant. •National Forum Grants provide the opportunity to convene qualified groups of experts and key stakeholders to consider issues or challenges that are important to libraries, museums, and/or archives across the nation. Grant-supported meetings are expected to produce widely disseminated reports with expert recommendations for action or research that address a key challenge identified in the proposal.

Deadline: February 1, 2012

Maximum Grants: \$500,000

Sparks! Ignition Grants for Libraries and Museums

The Sparks! Ignition Grants for Libraries and Museums are a special funding opportunity within the IMLS National Leadership Grants program. These small grants encourage libraries, museums, and archives to test and evaluate specific innovations in the ways they operate and the services they provide. Sparks Grants support the deployment, testing, and evaluation of promising and groundbreaking new tools, products, services, or organizational practices. You may propose activities or approaches that involve risk, as long as the risk is balanced by significant potential for improvement in the ways libraries and museums serve their communities. Successful proposals will address problems, challenges, or needs of broad relevance to libraries, museums, and/or archives. A proposed project should test a specific, innovative response to the identified problem and present a plan to make the findings widely and openly accessible. To maximize the public benefit from federal investments in these grants, the Sparks Grants will fund only projects with the following characteristics: Broad Potential Impact—You should identify a specific problem or need that is relevant to many libraries, archives, and/or museums, and propose a testable and measurable solution. Proposals must demonstrate a thorough understanding of current issues and practices in the project's focus area and discuss its potential impact within libraries, archives, and/or museums. Proposed innovations should be widely adoptable or adaptable. Significant Innovation—The proposed solution to the identified problem must offer strong potential for non-incremental, significant advancement in the operation of libraries, archives, and/or museums. You must explain how the proposed activity differs from current practices or takes advantage of an unexplored opportunity, and the potential benefit to be gained by this innovation.

Southern Exposure: Performing Arts of Latin America

Southern Exposure: Performing Arts of Latin America provides support for projects in which three-to-five performing arts presenters work collaboratively to present exemplary contemporary and traditional performing artists from Latin America in their respective communities. The pilot program will support an array of tours throughout the United States that include public performances, community-based activities and extensive contextualization designed to build appreciation for the arts and cultures of the visiting artists, and develop and deepen relationships between Latin American artists and communities and artists in the United States. The initiative encourages arts presenters to reach new audiences, including communities with origins in Latin America that reflect the demographic changes that have taken place in the United States over recent decades. Southern Exposure seeks to create a network of sites that can share expertise and costs to offer meaningful exchanges between artists, audiences and their communities.

Deadline: February 10, 2012

Maximum Grant: \$25,000

Facility investments and building reserves

The Kresge Foundation's Arts and Culture program has announced the final call for preliminary grant applications for its Facility Investments and Building Reserves program. Kresge is conducting this final round of facility and building reserve grants as it continues to refine its overall investment strategy. Eligible organizations may apply for both facility investment and building reserve grants, or building reserve grants only. Facility investment grants will prioritize renovation and repair projects. (On occasion, this grant may be awarded for new construction that includes exemplary environmental sustainability practices.) Building reserve grants are designed to seed or enhance an organization's building reserve fund for the ongoing maintenance and replacement of an organization's facilities. The program does not fund reserves solely for equipment. Eligible applicants are nonprofit 501(c)(3) organizations in the United States whose primary mission is arts and culture.

Landmarks of American History and Culture

The Landmarks of American History and Culture program supports series of one-week residence-based workshops for a national audience of K-12 educators. NEH Landmarks of American History and Culture Workshops use historic sites to address central themes and issues in American history, government, literature, art, music, and other related subjects in the humanities. The goals of the workshops are to • increase knowledge and appreciation of subjects, ideas, and places significant to American history and culture through humanities reading and site study; • build a community of inquiry and provide models of civility and of excellent scholarship and teaching; • provide teachers with expertise in the use and interpretation of historical sites and of material and archival resources; and • encourage historical and cultural sites to develop greater capacity and scale for professional development programs. NEH Landmarks Workshops are held at or near sites important to American history and culture (e.g., presidential residences or libraries; colonial-era settlements; major battlefields; historic districts; parks and preserves; sites of key economic, social, political, and constitutional developments; and places associated with major writers, artists, and musicians). Applicants should make a compelling case for the historical significance of the site(s), the material resources available for use, and the ways in which the site(s) will enhance the workshop.

NEA Ourtown Grant

The Arts Endowment's support of a project may start on September 1, 2012, or any time thereafter. A grant period of up to two years is allowed. Grant Program Description Art works to improve the lives of America's citizens in many ways. Communities across our nation are engaging design and leveraging the arts to create livable, sustainable neighborhoods with enhanced quality of life, increased creative activity, distinct identities, a sense of place, and vibrant local economies that capitalize on existing local assets. The NEA defines these efforts as Creative Placemaking: "In creative placemaking,

partners from public, private, nonprofit, and community sectors strategically shape the physical and social character of a neighborhood, town, tribe, city, or region around arts and cultural activities. Creative placemaking animates public and private spaces, rejuvenates structures and streetscapes, improves local business viability and public safety, and brings diverse people together to celebrate, inspire, and be inspired." Institutes for Advanced Topics in the Digital Humanities

These NEH grants support national or regional (multistate) training programs for scholars and advanced graduate students to broaden and extend their knowledge of digital humanities. Through these programs, NEH seeks to increase the number of humanities scholars using digital technology in their research and to broadly disseminate knowledge about advanced technology tools and methodologies relevant to the humanities. The projects may be a single opportunity or offered multiple times to different audiences. Institutes may be as short as a few days and held at multiple locations or as long as six weeks at a single site. For example, training opportunities could be offered before or after regularly occurring scholarly meetings, during the summer months, or during appropriate times of the academic year. The duration of a program should allow for full and thorough treatment of the topic.

Grants for Visual Artists

The Pollock-Krasner Foundation's dual criteria for grants are recognizable artistic merit and demonstrable financial need, whether professional, personal or both. The Foundation's mission is to aid, internationally, those individuals who have worked as professional artists over a significant period of time. The Foundation welcomes, throughout the

year, applications from visual artists who are painters, sculptors and artists who work on paper, including printmakers. There are no deadlines. The Foundation encourages applications from artists who have genuine financial needs that are not necessarily catastrophic. Grants are intended for a one-year period of time. The Foundation will consider need on the part of an applicant for all legitimate expenditures relating to his or her professional work and personal living, including medical expenses. The size of the grant is determined by the individual circumstances of the artist

VH1 Save The Music Foundation

The VH1 Save The Music Foundation helps develop long-term, sustainable instrumental music programs that provide children with equal access to music education regardless of their financial situation. Through strategic partnerships with school districts, the Foundation provides brand-new musical instruments to public elementary and middle schools, jump-starting dormant music programs across the country. The school districts commit to funding certified music teachers' salaries, providing maintenance and supplies, and scheduling instrumental music classes during the school day. The Foundation maintains a partnership with the district until instrumental music is in place in every school. The VH1 Save The Music Foundation is dedicated to restoring instrumental music programs to ensure that all children have access to a complete education. In the communities with which we grant, we work at the district level, from the top down. If a need for instrumental music education exists, we look to the superintendent and school board for a commitment to restore music in every school within a district. With a common goal of fully rebuilding, community partnerships are created and instrumental music education is brought back to life.

Sustainable Communities Planning Grant and Incentive Program 2011

On behalf of the Strategic Growth Council (SGC), the Department of Conservation manages competitive grants to cities, counties, and designated regional agencies to promote sustainable community planning and natural resource conservation. The grant program supports development, adoption, and implementation of various planning elements. The Sustainable Communities Planning Grant Program offers a unique opportunity to improve and sustain the wise use of infrastructure and natural resources through a coordinated and collaborative approach. The Department of Conservation (DOC), Division of Land Resource Protection (DLRP), Planning Grant and Incentive Program has released the round two Sustainable Communities Planning Grant Request for Proposals (RFP) funded through the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Act of 2006 (Proposition 84). DOC has allocated approximately \$18 million of Proposition 84 funds for round two. The funds awarded will support development, adoption, and implementation of Sustainable Community planning elements throughout the State, including, but not limited to, Climate Action Plans and General Plan amendments. The grants awarded from this solicitation will cover up to a three-year project period. DOC is utilizing the State Water Resources Control Board (State Water Board) Financial Assistance Application Submittal Tool (FAAST) system to facilitate the application and review process, and to conserve paper.

FedEx Grant Program

The mission of the FedEx Social Responsibility department is to actively support the communities we serve and to strengthen our global reputation through strategic investment

of our people, resources and network. FedEx is especially interested in supporting nonprofit organizations that request: 5% or less of a total project budget; contingency grants; or seed monies with the thought that other sources will contribute matching amounts. Organizations must show evidence of competent management, low administrative/fundraising expense ratios, and a nondiscriminatory program benefiting broad segments of the community. We heavily weigh the potential involvement of our employees in groups that seek our financial support. We have three core focus areas that our investments can impact in important and meaningful ways: Emergency and Disaster Relief, Child Pedestrian Safety, and Environmental Sustainability. FedEx has Corporate Neighbor Teams which serve as community service ambassadors. These teams work with many nonprofit organizations and act as a clearinghouse for requests for manpower assistance. They serve the following areas: Arts, Children/Youth, United Way, Adopt-A-School, Junior Achievement, Hearing-Impaired and Civic Affairs. Nonprofits needing volunteers should submit a written request.

Transforming Undergraduate Education in Science, Technology, Engineering and Mathematics

The Transforming Undergraduate Education in Science, Technology, Engineering, and Mathematics (TUES) program seeks to improve the quality of science, technology, engineering, and mathematics (STEM) education for all undergraduate students. This solicitation especially encourages projects that have the potential to transform undergraduate STEM education, for example, by bringing about widespread

adoption of classroom practices that embody understanding of how students learn most effectively. Thus transferability and dissemination are critical aspects for projects developing instructional materials and methods and should be considered throughout the project's lifetime. More advanced projects should involve efforts to facilitate adaptation at other sites.

Project School Emergency Response to Violence (SERV)

This program funds short-term and long-term education-related services for local educational agencies (LEAs) and

institutions of higher education (IHEs) to help them recover from a violent or traumatic event in which the learning environment has been disrupted. Many types of events have the potential to seriously disrupt the learning environment. Further, events that appear similar do not always affect the learning environment in the same way. These facts make it difficult to determine in advance all the types of events which would be eligible for services. Any traumatic or violent event, that disrupted teaching and learning, is eligible for services under Project SERV if the LEA or IHE is able to: (1) demonstrate the traumatic effect on the learning environment including how the event has disrupted teaching and learning; and (2) demonstrate that the needed services cannot be adequately provided with existing resources in a comprehensive and timely manner, and that the provision of services and assistance will result in an undue financial hardship on the LEA or IHE. LEAs and IHEs may apply for two types of assistance under Project SERV: Immediate Services grants (maximum grant of \$50,000) and Extended Services grants (maximum grant of \$250,000).

Improvements in Facilities, Communications, and Equipment at Biological Field Stations and Marine Laboratories

Biological Field Stations and Marine Laboratories (FSMLs) are off-campus facilities for research and education conducted in the natural habitats of terrestrial, freshwater, and marine ecosystems. FSMLs support environmental and basic biological research and education by preserving access to study areas and organisms, by providing facilities and equipment in close proximity to those study areas, and by fostering an atmosphere of mutual scientific interest and collaboration in research and education. To fulfill these roles, FSMLs must offer modern research and educational facilities, equipment, communications and data management systems for a broad array of users. In recognition of the importance of FSMLs in modern biology, NSF invites proposals that address these general goals of FSML improvement.

Water Conservation Field Services Program - Lower Colorado Regional Area

The objective of this FOA is to invite irrigation and water districts, states, local governments, water providers, and other entities that have a tie to Reclamation projects to leverage their money and resources by cost sharing with Reclamation on activities/projects that make more efficient use of existing water supplies through water conservation and efficiency in the LCRA. Activities/Projects will be selected through a competitive process using the selection criteria listed. Eligible applicants include agricultural and M&I water user entities, states, tribes, local governments, and other organizations with water delivery authority. To be eligible for financial assistance under this announcement, the applicant must have a definable relationship to the watershed of one, or more, specific Reclamation water projects in the LCRA boundaries. For the purposes of this funding announcement, a Reclamation project is defined as a specific Reclamation water project that was authorized by Congress and constructed by Reclamation. This includes everything within the project service area (i.e., project features and facilities, project service area, watershed, water systems or water supplies affected by a specific Reclamation project) and the Colorado River. Substantiation of a Reclamation water supply contract is one way to show a relationship to a Reclamation project.

WaterSMART: Water and Energy Efficiency Grants

The U.S. Department of the Interior's (Department) WaterSMART (Sustain and Manage America's Resources for Tomorrow) Program establishes a framework to provide Federal leadership and assistance on the efficient use of water, integrating water and energy policies to support the sustainable use of all natural resources, and coordinating the water conservation activities of various Department bureaus and offices. Through the Program, the Department is working to achieve a sustainable water management strategy to meet the Nation's water needs. The objective of this Funding Opportunity Announcement (FOA) is to invite States, Indian tribes, irrigation districts, water districts, and other organizations with water or power delivery authority to leverage their money and resources by cost sharing with Reclamation on projects that seek to conserve and use water more efficiently, increase the use of renewable energy and improve energy efficiency, benefit endangered and threatened species, facilitate water markets, or carry out other activities to address climate-related impacts on water or prevent any water-related crisis or conflict. Water conservation, use of water markets, and improved efficiency are crucial elements of any plan to address western United States water issues. With leveraged water and energy efficiency grants, an important step will be taken towards increasing conservation for a more efficient use of water in the West.

SunShot Concentrating Solar Power Research and Development

The U.S. Department of Energy (DOE) seeks to fund revolutionary applied scientific research that develops highly disruptive Concentrating Solar Power (CSP) technologies that will meet 6 cents per kWh cost target by the end of the decade. This Funding Opportunity Announcement (FOA) for SunShot Concentrating Solar Power Research and Development intends to support research into technologies that have the potential for much higher efficiency, lower cost, and/or more reliable performance than existing commercial and near-commercial CSP systems and their expected incremental progress in future years. As part of the SunShot Initiative, this applied research program is intended to demonstrate and prove new concepts in the collector, receiver, and power cycle subsystems, including associated hardware and manufacturing processes. These developments should lead to subsequent system integration, engineering scale-up, and eventual commercial production for electricity generation applications. The SunShot CSP program is designed to look beyond incremental near-term innovation and explore transformative concepts with the potential to break through performance barriers as known today, such as efficiency and temperature limitations. These goals support the mission of the DOE SunShot Initiative.

National Oceanic Atmospheric Administration Broad Agency Announcement (BAA)

As an agency with responsibilities for maintaining and improving the viability of marine and coastal ecosystems, for delivering valuable weather, climate, and water information and services, for understanding the science and consequences of climate change, and for supporting the global commerce and transportation upon which we all depend, NOAA must remain current and responsive in an ever-changing world. We do this in concert with our partners and stakeholders in federal, state, and local governments and private organizations, applying a systematic approach that links our strategic goals through multi-year plans to the daily activities of our employees. Every year we are committed to re-evaluate our progress and priorities, look for efficiencies, and take advantage of new opportunities to improve our information, products, and services. In furtherance of this objective, NOAA issues this BAA for extramural research, innovative projects, and sponsorships (e.g., conferences, newsletters etc.) that address one or more of the following four mission goal descriptions contained in the NOAA Strategic Plan: Climate Adaptation and Mitigation; Weather-Ready Nation; Healthy Oceans; Resilient Coastal Communities and Economies.

Waste Management Charitable Giving

Waste Management supports causes that promote civic pride, economic development and revitalization, and innovative problem-solving initiatives. Waste Management is most likely to support projects/organizations in the following areas: (1) Environment: Waste Management is committed to helping provide renewal resources to reduce our dependence on fossil fuels, and to conserving and maintaining wetlands, wildlife habitats and green spaces for people's enjoyment. Waste Management supports organizations and programs that preserve and/or enhance natural resources. (2) Environmental Education: Waste Management prefers to support environmental education programs targeted at middle and high school students. This includes environmental and science related projects, science fairs, Earth Day projects and others. (3) Community: Waste Management is committed to enhancing communities through programs that help make them cleaner and better places to live.

Research to Advance Vaccine Safety

The purpose of this funding opportunity announcement

(FOA) is to support research that will contribute to the overall understanding of vaccine safety. This research opportunity invites studies that address scientific areas potentially relevant to vaccine safety such as 1) physiological and immunological responses to vaccines and vaccine components, 2) how genetic variations affect immune/physiological responses that may impact vaccine safety, 3) identification of risk factors and biological markers that may be used to assess whether there is a relationship between certain diseases or disorders and licensed vaccines, 4) creation/evaluation of statistical methodologies for analyzing data on vaccine safety, including data available from existing data sources such as passive reporting systems, or 5) the application of genomic/molecular technologies to improve knowledge of vaccine safety.

Ben & Jerry's Foundation: National Grassroots Grant Program

Through the National Grassroots Grant Program, Ben & Jerry's Foundation provides support to nonprofit community organizations throughout the United States that bring about progressive social change by addressing the underlying conditions of societal and environmental problems. Our broad goals are to further social justice, protect the environment and support sustainable food systems. In making funding decisions, we focus on activities and strategies an organization uses for creating social and environmental change.

Deadline: Open

Maximum Grant Amount: \$15,000

Charette Grants

An initiative of Enterprise Community Partners, Enterprise Green Communities provides funds and expertise to enable affordable housing developers to build and rehabilitate homes that are healthier, more energy efficient, and better for the environment. In addition to loans and other funding options, Green Communities offers Charrette and Sustainability grants to help cover the costs of planning and implementing green components of affordable housing developments, as well as tracking their costs and benefits. Charrette grants funding for affordable housing developers to engage in integrative design. A Green Communities charrette involves an intense working session that brings together a diverse group of housing development professionals as well as residents, technical experts, funders, policy makers, and community stakeholders to integrate sustainable green design principles into affordable housing developments. By supporting charrettes at the schematic design phase, Enterprise seeks to help developers establish green goals as early as possible so that the most cost-effective green strategies can be incorporated in the building and site plans. Projects applying for pre-development charrette funds must be in the early stages of planning or schematic design phase of development.

The Colcom Foundation

Colcom Foundation's principal funding interests reflect a primary concern for quality of life, which it strives to address with honesty, compassion and responsibility. Through the practice of strategic grant-making, the Foundation focuses its philanthropic program on environmental sustainability, natural resource preservation, land and water conservation, and efforts to establish a sustainable population. Geographic areas of giving include national, regional, and local.

Deadline: Open (LOI)

Dr. Robert C. and Tina Sohn Foundation

The Dr. Robert C. and Tina Sohn Foundation has been formed to continue the vision and legacy of its founders. The Sohns lived their lives connected to both the spiritual and temporal worlds, committed to healing the spirit and at the same time preserving the planet and our physical beings. Their vision of a "wholistic" life, lived synergistically with nature and the environment, in which all people can breathe clean air, eat wholesome organic food, and be exposed to the wonders of music, dance and literature, continues in the Foundation. The Foundation will support a broad spectrum of causes which support the environment, alternative health care and the arts. The Foundation is particularly interested in funding educational projects which bring an awareness of the environment, alternative health care and the arts to those who are underserved, particularly to young people.

Ecosystem Restoration on Agricultural Lands (ERAL)

The Wildlife Conservation Board's agricultural program is formally known as the Ecosystem Restoration on Agricultural Lands (ERAL) program. The intent of the funding is to assist landowners in developing wildlife friendly practices on their properties that can be sustained and co-exist with agricultural operations. In California, a large number of wildlife species are dependent on privately owned agricultural lands for habitat. Agricultural lands can provide significant habitat and connectivity with protected wildlife areas. In many cases agricultural landowners are willing to integrate wildlife habitat benefits into the management and operations of their properties, but lack the capital and/or expertise to implement these practices.

Kresge Foundation: Healthy Environments Program

The Kresge Foundation is a national grant maker that seeks to influence the quality of life for future generations. The Foundation's Healthy Environments grant program aims to improve the health and well being of vulnerable children from low-income families by making the places they live, learn, and play supportive of overall good health. Funding priorities include clean air; safe and healthy housing and schools; and safe, accessible, and inviting outdoor play spaces. Grants are provided for highly promising, evidence-based regional and statewide efforts that have the potential to achieve broad change through replication or increased scale. Grants range from \$100,000 to \$750,000 for project periods of up to three years. One-year strategic

planning grants are also offered.

Deadline: Open

Sustainability Training Grants

Green Communities offers Sustainability Training Grants for affordable housing developers to maximize the health, economic and environmental benefits of green development throughout the project's life cycle. This grant program provides an opportunity to transfer the design knowledge that informed the Green Communities planning and construction process to the residents, as well as operations and management staff. Funding is available to cover the cost of implementing a training program and related tools that support green resident engagement and operations.

Deadline: Open

Watershed Restoration Projects in the West

The Wick Kenney Fund, a component of Kenney Brothers Foundation, provides support to nonprofit organizations that work to protect and restore watersheds in the Western United States. Discretionary grants focus on projects that: provide a real opportunity to change western water policy on a local, state, or national level; defend environmental laws critical for the protection of all western rivers; focus on a specific strategy for protection of biologically important western watershed; or research and analyze western water issues.

Advancing HIV Prevention through Transformative Behavioral and Social Science Research

This Funding Opportunity Announcement (FOA) encourages applications that will advance general knowledge about HIV prevention through transformative behavioral and social science research. An underlying assumption for this funding opportunity is that methods of and findings from social and behavioral studies can make essential contributions to research that utilizes biomedical modalities. In addition, biomedical perspectives are essential for the advancement of social and behavioral HIV research on HIV prevention. Therefore, this FOA invites studies that are comprehensive in the sense that the reciprocal influences of relevant variables, whether social, behavioral, or biomedical are included in study design and interpretation. This FOA is intended to address the goals of the National HIV AIDS Strategy, and therefore studies should address issues that are highly relevant to the domestic (i.e., United States) HIV problem.

Innovation for HIV Vaccine Discovery

The purpose of this Funding Opportunity Announcement (FOA), is to encourage applications from institutions/organizations proposing innovative, high risk, high impact research to identify novel vaccine concepts and targets that will aid in the design and development of an effective immunogen that may provide long-term protection from acquisition of HIV. The emphasis of this FOA is early discovery research that incorporates new ideas leading to the development of new conventional or outside-the-box approaches for vaccines that may have significant impact on the design of novel immunogens or immunization strategies for an effective HIV vaccine. The program is open to established and new investigators and does not require research expertise in HIV prevention as a prerequisite for submitting an application.

Critical Congenital Heart Disease Newborn Screening Demonstration Program

The purpose of the Critical Congenital Heart Disease (CCHD) Newborn Screening Demonstration Program is to support the development, dissemination and validation of screening protocols and newborn screening infrastructure for point of care screening specific to CCHD (i.e., the measurement of blood oxygen saturation as a detection method). The demonstration program must focus on enhancing state screening infrastructure, including the implementation of an electronic health information exchange for reporting and collecting pertinent information from hospitals, as well as the education and training of various stakeholders on testing methodology and follow-up protocols. This announcement solicits applications for activities to: 1) Enhance, improve or expand the capacity of state, local public health agencies and hospitals to: provide screening; counseling; link the results of CCHD screening to needed follow-up health care services; and/or perform the necessary quality assurance, outcomes analysis and other public health surveillance functions; 2) Assist in providing health care professionals and newborn screening program personnel with education in newborn screening and training in relevant new technologies for critical congenital heart disease (such as the use of pulse oximetry); 3) Develop and deliver educational programs (at appropriate literacy levels) about critical congenital heart disease newborn screening, counseling, testing, follow-up, treatment, and specialty services to parents, families, and patient advocacy and support groups; and 4) Establish, maintain, and operate a system to coordinate and assess screening programs and follow-up relating to critical congenital heart disease.

Rural Policy Analysis Program

This funding opportunity announcement solicits applications for the Rural Policy Analysis Program. The purpose of this program is to support research and analysis of key policy issues affecting rural communities to inform policy makers. The program is national in scope and looks at cross-cutting rural health and human services issues in order to identify trends and challenges. Funded projects should focus on the changing rural environment and outline how they would achieve the following: -1 facilitate public dialogue on key rural policy issues by tracking emerging rural health and human services policy issues and synthesize them in a manner that provides for easy consumption by rural community leaders, with particular emphasis on rural health care providers and systems; -2 identify opportunities for integrating health and human services in rural policy, program, and evaluation in a local community context; -3 identify opportunities to demonstrate broad community impact of policies and programs in rural health and human services, consistent with policy goals related to rural revitalization and sustainability of rural regions; and -4 provide analysis of policies and regulations that helps optimize positive impacts on rural health systems and communities in the form of policy briefs, reports, and oral presentations. These activities should educate and inform rural decision makers and policy leaders as well as organizations focused on improving health and human services in rural communities such as State Offices of Rural Health, State Rural Health Associations, and the like.

Lead-Based Paint Hazard Control Grant Program

The overarching purpose of the Lead Based Paint Hazard Control Program and the Lead Hazard Reduction Demonstration Grant Program is to assist states, Native American Tribes, cities, counties/parishes, or other units of local government in undertaking comprehensive programs to identify and control lead-based paint hazards in eligible privately owned rental or owner-occupied housing, with the exception that the Lead Hazard Reduction Demonstration Grant Program is targeted for urban jurisdictions with the greatest lead-based paint hazard control needs. To be eligible to apply for funding under this NOFA, you must be a state, Native American Tribe, city, county/parish, or other unit of local government. Multiple units of a local government (or multiple local governments) may apply as a consortium; however, a principal (lead) applicant must be identified that will be responsible for ensuring compliance with all requirements specified in this NOFA. State government and Native American tribal applicants must have an Environmental Protection Agency (EPA) authorized lead-based paint training and certification program.

Research Centers in Primary Care Practice Based Research and Learning

This FOA solicits Center Core grant (P30) applications from organizations with a demonstrated track record of success in conducting research in primary care PBRNs. Each successful applicant will serve as a Research Center in Practice-Based Research and Learning. These Each Center must have at least 120 primary care member practices and may either consist of 1) a primary organization with 3 or more affiliated regional PBRNs (including a PBRN affiliated with the primary organizations); or 2) be a national PBRN organized around shared resources and research infrastructure. It is expected that each Center will foster a highly collaborative, interdisciplinary research environment. By leveraging common resources, it is expected that either the consortium of PBRNs or the national PBRN will demonstrate greater productivity and will develop and conduct independent research projects more quickly than they would as separate PBRNs without a central infrastructure and collaborative partners. AHRQ is particularly interested in supporting an infrastructure that would accelerate both the generation of new knowledge and a community of learning for primary care practices to improve quality, patient safety and effectiveness of care. This funding opportunity provides no funds for specific research projects. The funds to be awarded are intended to strengthen the research and dissemination infrastructure of each Center. It is expected that as a result of this funding, Centers will be more equipped to compete for research funding from AHRQ and other funders and be better able to conduct primary care practice-based research and support quality improvement in member practices.

Health Care Innovation Challenge

This initiative will fund applicants who propose compelling new models of service delivery/payment improvements that hold the promise of delivering the three-part aim of better health, better health care, and lower costs through improved quality for Medicare, Medicaid, and Children's Health Insurance Program (CHIP) enrollees. Successful models will include plans to rapidly develop and/or deploy the requisite workforce to support the proposed model. Awards will recognize interventions that show capability to improve care within the first six months of the award, while creating a sustainable pathway to net Medicare/Medicaid/CHIP savings within two to three years. The intent of this initiative is to engage with a wide variety of innovators. Interested parties of all types who have developed innovations that will drive significant improvement in three-part aim outcomes are welcome to apply. Examples of the types of organizations expected to apply are: provider groups, health systems, payers and other private sector organizations, faith-based organizations, local governments, and public-private partnerships and for-profit organizations. In addition, certain organizations could be eligible to apply as conveners assembling and coordinating the efforts of a group of participants. Conveners could serve as facilitators or could be direct award recipients. States are not eligible to apply under this funding opportunity.

Mentored Research Scientist Development Award in Metabolomics

Metabolomics is a rapidly growing field that has the potential to advance our understanding of human diseases and how individuals respond to therapy. It is critical to have highly trained individuals who understand the field of metabolomics and can work and communicate with clinicians and other health professionals to perform, analyze and interpret the data obtained from metabolomic studies. This NIH Mentored Research Scientist Development Award will provide salary and research support for a sustained period of protected time (3 to 5 years) for postdoctoral and clinical fellows or investigators who meet the definition of a NIH New Investigator to pursue intensive research training in the field of metabolomics under the guidance of an experienced mentor who has an established research record in metabolomics. Total funding available, \$10,000,000.

Smart Health and Wellbeing

Through the Smart Health and Wellbeing (SHB) Program, NSF seeks to address fundamental technical and scientific issues that would support much needed transformation of healthcare from reactive and hospital-centered to preventive, proactive, evidence-based, person-centered and focused on wellbeing rather than disease. The issues to be addressed include, but are not limited to, sensor technology, networking, information and machine learning technology, modeling cognitive processes, system and process modeling, and social and economic issues. Effective technology-based solutions must satisfy a multitude of constraints arising from clinical needs, social interactions, cognitive limitations, barriers to behavioral changes, heterogeneity of data, semantic mismatch and limitations of current cyberphysical systems. The high degree of complexity and broad range of the problems require multidisciplinary teams of scientists and engineers to identify and address barriers limiting quality of life, independence for chronically ill and elder individuals, and other aspects of wellbeing. Fundamental technological advances are also needed to understand the impediments that prevent people from engaging in health-promoting life styles including diet and exercise and from participating in their healthcare decisions.

Innovations for Health Competition

Ashoka Changemakers and the Robert Wood Johnson Foundation's Pioneer Portfolio have launched a new competition, Innovations for Health: Solutions that Cross Borders, to promote healthcare solutions from anywhere in the world that have the potential to be applied in other countries to improve health and healthcare. The competition is intended to help build bridges toward a more accessible, cost-effective, consumer-engaged, and outcome-driven system of health services. The competition is seeking breakthrough innovations such as those that deploy the full spectrum of healthcare workers and providers, thereby improving the capacity, reach, and quality of healthcare services; use simple low-cost interventions to improve medical, preventive, and dental care; help people find and access the health information, services, and providers they need through new tools and processes; provide high quality and personalized care in non-traditional settings; and find new ways to engage patients in their care, particularly patients with chronic illnesses. Early Entry Prize: Entries received by December 12, 2011, 5 p.m. EST will be eligible to win US \$500 and one of two private consulting sessions with industry experts.

Environmental Health Sciences (EHS) Core Centers

The National Institute of Environmental Health Sciences (NIEHS) invites applications from qualified institutions for support of Environmental Health Sciences Core Centers (EHS CC). The Centers are designed to establish leadership and support for programs of excellence in environmental health sciences by providing scientific guidance, technology, and career development opportunities for

promising investigators. A Core Center Grant is an institutional award to support centralized scientific resources and facilities shared by investigators with existing research projects. By providing structure and resources, this support is intended to enhance the ability of scientists working in the field of environmental health sciences to identify and capitalize on emerging opportunities that will translate into advances improving the understanding of the relationships among environmental exposures, human biology, and disease. Total funding: \$6,000,000.

Care for the Critically Injured Burn Patient

The Assistant Secretary of Defense for Health Affairs, Defense Health Program Medical Research and Development Office is soliciting proposals for the Defense Medical Research and Development Program (DMRDP). These awards will be funded beginning in fiscal year 2012 (FY12). The Telemedicine and Advanced Technology Research Center (TATRC) is administering the application process for this funding opportunity, and the United States Army Medical Research Acquisition Activity (USAMRAA) is issuing this Program Announcement and will be negotiating all resulting awards. The goal of the DMRDP is to advance the state of medical science in those areas of most pressing need and relevance to today's battlefield experience, in this case burn injuries. The objectives of the DMRDP are to discover and explore innovative approaches to protect, support, and advance the health and welfare of military personnel, families, and communities; to accelerate the transition of medical technologies into deployable products; and to accelerate the translation of advances in knowledge into new standards of care for injury prevention, treatment of casualties, rehabilitation, and training systems that can be applied in theater or in the clinical facilities of the Military Health System (MHS).

American Federation for Aging Research Invites Applications for Research Grants

The major goal of this program is to assist in the development of the careers of junior investigators committed to pursuing careers in the field of aging research. AFAR supports research projects concerned with understanding the basic mechanisms of aging. Projects investigating age-related diseases are also supported, especially if approached from the point of view of how basic aging processes may lead to these outcomes. Projects concerning mechanisms underlying common geriatric functional disorders are also encouraged, as long as these include connections to fundamental problems in the biology of aging. Projects that deal strictly with clinical problems such as the diagnosis and treatment of disease, health outcomes, or the social context of aging are not eligible.

AHRQ Health Services Research Demonstration and Dissemination Grants

This Funding Opportunity Announcement (FOA) solicits Large Research Demonstration and Dissemination (R18) Projects, and expresses AHRQ portfolio priority areas of interest for these ongoing, extramural grants. Mechanism of Support. This FOA will use the AHRQ Large Research Demonstration and Dissemination Grant (R18) award mechanism. Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the numbers, quality, duration, and costs of

the applications received. Budget and Project Period. The total costs awarded to a grant under this FOA will not exceed \$500,000 annually for the entire project period. An application with a budget that exceeds \$500,000 total costs per year will not be reviewed. Funding beyond the first year will be contingent upon a review and acceptance by Agency staff of the progress report.

AHRQ Health Services Research Projects

This Funding Opportunity Announcement (FOA) solicits Large Research (R01) Projects, and expresses AHRQ portfolio priority areas of interest for ongoing extramural health services research, demonstration, dissemination, and evaluation grants. Mechanism of Support. This FOA will use the AHRQ Research Project Grant (R01) award mechanism. Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Applications submitted in response to this FOA will receive the highest priority for AHRQ investigator initiated grant funds in FY09. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the numbers, quality, duration, and costs of the applications received. Budget and Project Period. The total costs awarded to a grant under this FOA will not exceed \$500,000 annually for the entire project period. An application with a budget that exceeds \$500,000 total costs per year will not be reviewed. Funding beyond the first year will be contingent upon a review and acceptance by Agency staff of the progress report.

NIDCD Research On Hearing Health Care

This funding opportunity announcement (FOA) issued by National Institute on Deafness and Other Communication Disorders (NIDCD) invites Exploratory/Developmental Phased Innovation (R21/R33) grant applications to support research and/or infrastructure needs leading to more accessible and affordable hearing health care (HHC). For the purposes of the working group and this FOA, hearing health care includes assessment (including screening) and nonmedical treatment and rehabilitation of HL, including hearing aid selection and fitting and aural rehabilitation (counseling, auditory training). The proposed research aims should lead to the delivery of better healthcare access and outcomes and be directed to solutions that are effective, affordable and deliverable to those who need them. Outcomes research and health services research related to accessible and affordable hearing health care are also responsive to this FOA. This FOA provides support for up to two years (R21 phase) for preliminary /development studies, followed by possible transition of up to four years of expanded research and development support (R33 phase).

Patient Safety Research During Neonatal Care

This FOA encourages a wide range of collaborative research projects related to patient safety in the context of both routine as well as intensive newborn care. The FOA welcomes proposals related to (but not limited to): the epidemiology of various domains of medical errors and consequent patient harm; assessing the factors at various levels that contribute to such errors; and intervention strategies at individual, systems, and institutional-levels to help reduce and eliminate medical errors in the context neonatal care. It is anticipated that knowledge gained from these projects will help develop strategies to deliver highest quality of healthcare to all newborn infants with utmost safety and effectiveness.

Alcohol Education Project Grants

The National Institute on Alcohol Abuse and Alcoholism (NIAAA) supports research programs to advance understanding of the biological and behavioral processes involved in the development, expression, and consequences of alcoholism

and other alcohol-related problems. The Institute also supports prevention, treatment, and health services research on alcohol abuse and alcoholism. A part of the NIAAA mission is the dissemination of new knowledge acquired from alcohol research to diverse audiences, including scientists, educators, clinicians, and other health and social service providers, patients and their families, professionals within the criminal justice system, and the general public. This FOA identifies the research activity on alcohol education of Health Professions that NIAAA will consider for award through Education grants (R25).

Understanding User Needs and Context to Inform Consumer Health Information Technology

This is a Large Research Project (R01) FOA to express AHRQs interest in funding research projects that will build a knowledge base of individuals personal health information management (PHIM) needs and practices and the design principles related to these activities. The increased interest in and availability of consumer health information technology (IT) applications meant to assist consumers in managing their personal health information has rapidly increased over the past decade. Many other industries have greatly benefited from design principles that take into account user needs and context, which help designers improve the utility of information management tools among a heterogeneous population of users. Individuals are the end users of consumer health IT; however, there is still a lack of basic research around these end users PHIM practices and needs and how these methods are influenced by a multitude of other contextual factors (e.g., care settings, demographics, motivations, user capabilities and limitations, informal caregiving networks, technology sophistication, and access to Internet) that, typically, represent a mixture of facilitators or barriers to adequate PHIM.

HIV Incidence Assays with Improved Specificity

This FOA issued by the National Institute of Allergy and Infectious Diseases (NIAID), National Institutes of Health, encourages grant applications from institutions/ organizations that propose to develop improved HIV Incidence Assays with increased specificity and reliability for distinguishing incident from chronic HIV infections. The purpose of this FOA is to stimulate the development of cost-effective assays and algorithms with improved specificity and reliability for determining HIV incidence. Ideally, the assay would be accurate for diverse HIV-1 subtypes and could be performed in resource limited settings. Reliable identification of recently infected persons (within the last 12 months) is essential to derive accurate seroincidence estimates. This information is critical for the design and implementation of HIV prevention trials. For all HIV prevention trials, whether a vaccine, microbicide, oral pre-exposure prophylaxis agent, or another intervention(s) is used, an accurate assessment of HIV incidence in the proposed study population is necessary in order to calculate the required sample size and study duration and thus to determine the feasibility of the trial. For population level prevention trials, an HIV incidence measure is essential for determining the outcome. Additionally, improved methods for detecting recent infections and for distinguishing recent infections from chronic infections are needed.

Implications of the Economic Downturn for Health, Wealth, and Work at Older Ages

This Funding Opportunity Announcement (FOA) invites research on the implications of exogenous shocks, such as those produced by the recent economic downturn, for health, economic circumstances, and planning throughout the life-cycle. Evidence suggests that exposure to social, health, or economic "shocks" can have both short and long-term effects on well-being. The variety of shocks for which this appears to be the case –individual-specific (e.g., health, layoff, divorce, death) or more broadly-based (e.g., economic downturns, high unemployment rates, natural disasters, war) – suggests that adverse events can have profound effects on decision-making throughout the life-course, particularly with respect to retirement and health outcomes in later life. The recent economic downturn has drawn attention to possible long-term effects of a global economic shock (rapid and unanticipated loss of employment as well as housing and financial wealth) on individuals' perceptions, planning, behavior, and outcomes with respect to their health, well-being, and retirement decisions. Interest in this subject is heightened in light of the budgetary challenges facing Medicare, Medicaid and Social

Security. The potential long-term effects of the economic downturn on health, family, savings and employment choices are as yet unknown.

International Research Collaboration on Drug Abuse and Addiction Research

This Funding Opportunity Announcement (PA) encourages collaborative research applications on drug abuse and addiction that take advantage of special opportunities that exist outside the United States. Special opportunities include access to unusual talent, resources, populations, or environmental conditions in other countries that will speed scientific discovery. Projects should have relevance to the mission of NIDA and where feasible should address NIDA's scientific priority areas. While the priorities will change from year to year, in FY12 priority areas include: linkages between HIV/AIDS and drug abuse, and prevention, initiation, and treatment of nicotine and tobacco use (especially among vulnerable populations such as children, adolescents, pregnant women, and those with co-morbid disorders).

NIDDK Education Program Grants

This funding opportunity announcement (FOA) encourages Research Education (R25) grant applications from applicant organizations that propose to create educational opportunities for undergraduate students, graduate students, and postdoctoral fellows in areas of biomedical or behavioral research of particular interest to the NIDDK, while fostering the career development of these students and fellows. The structure of the educational opportunity can include an intensive summer research program, a curriculum-based program or a combination of both experiences. The NIDDK is especially interested in attracting students and postdoctoral fellows from scientific disciplines underrepresented in disease-oriented biomedical research, such as engineering, informatics, computer science, and computational sciences, to encourage them to apply their expertise to research relevant to diabetes and other endocrine and metabolic diseases; digestive and liver diseases; nutrition; obesity research and prevention; and kidney, urologic and hematologic diseases.

Research to Advance Vaccine Safety

The purpose of this funding opportunity announcement (FOA) is to support research that will contribute to the overall understanding of vaccine safety. This research opportunity invites studies that address scientific areas potentially relevant to vaccine safety such as 1) physiological and immunological responses to vaccines and vaccine components, 2) how genetic variations affect immune/physiological responses that may impact vaccine safety, 3) identification of risk factors and biological markers that may be used to assess whether there is a relationship between certain diseases or disorders and licensed vaccines, 4) creation/evaluation of statistical methodologies for analyzing data on vaccine safety, including data available from existing data sources such as passive reporting systems, or 5) the application of genomic/molecular technologies to improve knowledge of vaccine safety.

Screening and Brief Alcohol Interventions in Underage and Young Adult Populations

The purpose of this Funding Opportunity Announcement (FOA) issued by the National Institute on Alcohol Abuse and Alcoholism (NIAAA), National Institutes of Health (NIH), is to encourage research grant applications on screening and brief interventions to prevent and/or reduce alcohol use and its adverse consequences. This FOA is designed to stimulate a developmentally grounded program of research on screening and brief interventions to prevent and/or reduce underage drinking and hazardous young adult drinking. Research objectives of this FOA include, but are not limited to: (1) testing strategies to improve screening methods for youth with or at high risk for alcohol-related problems; (2) testing the efficacy and effectiveness of novel or modified evidence-based brief prevention interventions to: (a) prevent or delay the initiation of alcohol use, or (b) decrease the risk for the development of alcohol use disorders (AUDs) and associated problems among youth; (3) examining individual, peer, familial, community, cultural, or other contextual factors (e.g., health care settings) that affect the adoption, implementation, and outcomes of empirically validated screening measures or brief interventions. Studies of racially and ethnically diverse populations in various social and cultural settings are encouraged. Investigations must be especially sensitive to unique human subject issues when conducting research in minors.

Changes in Health Care Financing and Organization

Changes in Health Care Financing and Organization (HCFO) supports research, policy analysis and evaluation projects that provide policy leaders timely information on health care policy, financing and organization issues. Supported projects include: 1) examining significant issues and interventions related to health care financing and organization and their effects on health care costs, quality and access; and 2) exploring or testing major new ways to finance and organize health care that have the potential to improve access to more affordable and higher

quality health services. Projects may be initiated from within many disciplines, including health services research, economics, sociology, political science, public policy, public health, public administration, and law and business administration.

-Bond Financing Program

-Tax-Exempt Equipment Financing Program

CHFFA also provides direct loans to small and rural health facilities through the following programs:

-Help II Financing Program

-Medi-Cal Bridge Loan Program

Additionally, CHFFA administers two grant programs to provide funding to community clinics and 13 of the state's children's hospitals. These programs are:

-Community Clinic Grant Program

-Children's Hospital Program

Housing Counseling Program

This program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, and the homeless. The primary objectives of the program are to improve financial literacy, expand homeownership opportunities, improve access to affordable housing and preserve homeownership. Counselors provide guidance and advice to help families and individuals improve their housing conditions and meet the responsibilities of tenancy and homeownership. Additionally, counselors may provide counseling services to homeowners to prevent or resolve mortgage delinquency, default, and foreclosure, with the primary objective to preserve homeownership. Counselors provide guidance and advice to help families and individuals meet the responsibilities of homeownership and modify or refinance their loans. Counselors also help borrowers avoid inflated ap-

praisals, unreasonably high interest rates, unaffordable repayment terms, and other conditions that can result in a loss of equity, increased debt, default, and eventually foreclosure. Counselors can also assist homeowners with inquiries related to mortgage scams, and reporting instances of potential mortgage scam victimization. Applicants funded through this program may also provide Reverse Mortgage Counseling to senior homeowners who seek to convert equity in their homes into income that can be used to pay for home improvements, medical costs, living expenses, or other expenses. FUNDING: Housing counseling funding is distributed over four applicant categories Local Housing Counseling Agencies \$10,250,000, Intermediaries \$25,800,000, State Housing Finance Agencies \$2,800,000, and Multi-State Organizations \$1,200,000.

NOFA Policy Requirements and General Section to HUD's FY2011 NOFAs for Discretionary Programs

This notice describes HUD's FY2011 policy priorities and requirements applicable to all of HUD's NOFAs published in FY2011. The General Section provides overall guidance and direction to applicants regarding HUD's Policy Priorities and their relationship to HUD's Strategic Goals as stated in the Department's Strategic Plan for FY2010-2015. HUD's Strategic Plan for FY2010-2015 and HUD's Policy Priorities set forth a roadmap of actions to help transform communities through the implementation of HUD's programs. Each program NOFA will contain specific activities, requirements, policy priorities, and outcomes or measures of success that will be used to evaluate submitted applications. In each case, the outcomes described in the program NOFA will support the measures of success described in HUD's Strategic Plan. Each program NOFA will also describe additional procedures and requirements that apply to the individual program NOFAs, including a description of the eligible applicants, eligible activities, threshold requirements, factors for award, variations from the General Section requirements, and any additional program requirements or limitations. To adequately address all of the application requirements for any program for which you intend to apply, please carefully read and respond to both this General Section and the individual program NOFAs.

The Nathan Cummings Foundation

The Foundation's core programs include arts and culture; the environment; health; interprogram initiatives for social and economic justice; and the Jewish life and values/contemplative practice programs. The Foundation seeks to work with partners in the public, private, and nonprofit sectors. We make efforts to document the outcomes of our projects and share with others the results of our work and the work of our grantees. Several basic themes run through all of these programs and inform the Foundation's approach to grantmaking:

- concern for the poor, disadvantaged, and underserved;
- respect for diversity;
- promotion of understanding across cultures; and
- empowerment of communities in need.

Letters of inquiry are required before a final application may be submitted.

National Digital Newspaper Program

NEH is soliciting proposals from institutions to participate in the National Digital Newspaper Program (NDNP). NDNP is creating a national, digital resource of historically significant newspapers published between 1836 and 1922, from all the states and U.S. territories. This searchable database will be permanently maintained at the Library of Congress (LC) and be freely accessible via the Internet. (See the website, *Chronicling America: Historic American Newspapers*.) An accompanying national newspaper directory of bibliographic and holdings information on the website directs users to newspaper titles available in all types of formats. During the course of its partnership with NEH, LC will also digitize and contribute to the NDNP database a significant number of newspaper pages drawn from its own collections. NEH intends to support projects in all states and U.S. territories, provided that sufficient funds allocated for this purpose are available. One organization within each U.S. state or territory will receive an award to collaborate with relevant state partners in this effort. Previously funded projects will be eligible to receive supplements for continued work, but the program will give priority to new projects. Applications that involve collaboration between previously funded and new projects are welcome. Such collaborations might involve, for example, arranging with current awardees to manage the creation and delivery of digital files; offering regular and ongoing consultation on managing aspects of the project; or providing formal training for project staff at an onsite institute or workshop.

MGN Family Foundation

The MGN Family Foundation goals are to make grants in the fields of education, health care, medical research, and children's programs, and to help those in the U.S. Military, including their families. It is the intent of the Foundation to award grants based on achievement, excellence, influence, impactful work, or leadership in a specific field of charitable endeavor. Applicants must provide evidence of such leadership, excellence, or impactful work by notating such

within the application or attachments at the time of submission. The foundation desires to recognize and reward organizations making a measurable difference in their communities and the lives of its constituents. Institutions and areas of particular interest include: 1) Colleges, universities, and private schools; 2) Hospitals and clinics; 3) Organizations that support children in need whether due to emotional or physical abuse, neglect, or disadvantaged circumstances; 4) Community welfare with a specific focus on U.S. Military personnel and their families.

Shell Oil Foundation Grant

The Shell Oil Company Foundation's goal is to foster the general well-being of communities where Shell employees live and work. The foundation makes grants in the following areas: (1) Environment - As part of Shell's commitment to environmental stewardship, the Foundation supports projects that restore and protect critical ecosystems, particularly in areas where Shell Oil Company and its affiliates in the U.S. have a major presence. In addition to restoration and preservation efforts, the Foundation funds research projects for threatened wildlife and/or habitats. (2) Workforce Development / Education - The Foundation supports K-12 programs that boost math and science skills, as well as university programs that aid engineering and geoscientist students and their departments. Shell funds projects at vocational and technical schools where chemical and refinery operators and technicians are trained. The Foundation is especially interested in supporting educational outreach in math, science and technology to minority students and academic institutions with ethnically diverse enrollments. (3) Community Outreach - The Foundation will fund a broad array of community outreach projects, particularly in areas where our employees work and live. These projects range from small, local neighborhood improvement efforts, to large donations and fundraising events for regional non-profit organizations. The Foundation is especially interested in supporting groups that reflect the diversity and inclusiveness of our communities, which is a Shell core value. (4) Health and Welfare - The health and welfare of Shell employees is of high importance to the Foundation. Shell is committed to supporting efforts that advance health outreach programs in local communities as well as those that improve the welfare of the communities where Shell operates.

Little Hope Grant

A Little HOPE, Inc. is a not-for-profit publicly supported charitable foundation, recognized by the IRS under 501 (c) (3), which grants funds to organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling or loved one. Strong preference is given to applicants who demonstrate a commitment to the use of community trained volunteers, whose programs demonstrate multicultural competence in addressing children & adolescent's bereavement needs, and whose programs are likely to be replicable in other communities. Grant applications are by invitation only and are sent to potential grant recipients during the last quarter of each year. To be

considered, email or fax (no telephone calls): the name of your program, your website address, the name of your executive director, and the name of the program director, including their credentials. No other information is needed or will be processed. Do not send letters of inquiry or any other materials unless they have been requested by A Little Hope. No other organizations are authorized to solicit RFP's or information on our behalf.

Archstone: Meeting the Unmet Needs of the Aging

Responsive grant making is the Archstone Foundation's strategy to direct resources to emerging and unmet needs within the field of aging. The following categories are examples of types of issues the Foundation may consider through this grant making strategy.

- * Access to Care
- * Adult Day Services
- * Caregiver Support
- * Disability Services
- * Healthy Aging
- * Housing
- * Medication Management
- * Mental Health/Substance Abuse
- * Professional Education and Training
- * Promoting Aging in Place
- * Transportation

The Foundation accepts unsolicited letters of inquiry on an ongoing basis through the Foundation's responsive grant making process. After review of the letters, if the request falls within the funding priorities of the Foundation the organization will be invited to submit a full proposal for funding consideration. Priority is given to proposals serving the Southern California region.

James Irvine Foundation California Democracy Grants

Governance Reform — We make grants to improve state and local governance. Currently, we give priority to projects in three areas: budget and fiscal systems, election policies and practices, and the state redistricting process. We also welcome ideas for projects in other areas that can significantly improve state and local governance. Through our grantmaking, we support policy development, strategic communications, outreach, coalition building and other activities. For more information about our grants in this area. Civic Engagement — We make grants to increase opportunities for civic engagement among historically underrepresented communities, including low-income, ethnic and immigrant populations. We are particularly interested in innovative approaches and ongoing mechanisms for involving diverse communities in public decision making. In addition, we have a special focus on civic engagement specifically in the San Joaquin Valley and Inland Empire.

SAFETY

Second Chance Act Demonstration Field Experiment: Fostering Desistance through Effective Supervision

The Second Chance Act (SCA) of 2007 (Pub. L. 110-199) provides a comprehensive response to the increasing number of incarcerated adults and juveniles who are released from prison, jail, and juvenile residential facilities and returning to communities. There are currently over 2.3 million individuals serving time in our federal and state prisons, and millions of people cycling through local jails every year. Ninety-five percent of all offenders incarcerated today will eventually be released and will return to communities. The Second Chance Act helps to ensure that the transition individuals make from prison, jail, or juvenile residential facilities to the community is successful and promotes public safety. As part of a collaborative effort with the National Institute of Justice (NIJ) and the National Institute of Corrections (NIC), BJA seeks proposals to implement and rigorously test important criminal justice interventions and programs as part of a multi-site Demonstration Field Experiment (DFE) on prisoner reentry. The tested intervention will address motivation to change as well as criminal thinking, two areas that we need more scientific information. In addition, parole officers and service providers will work collaboratively to improve delivery of the DFE intervention. The DFE will use a randomized controlled trial research

method. This multi-site DFE is part of BJA's reentry activities supported with funding under the SCA. One purpose of the SCA is to generate new evidence about effective solutions for reducing recidivism among the increasing number of people who are released from jail and prison to communities as well as the subsequent challenges communities face as offenders reintegrate into society. Eligible Applicants: State governments, County governments, City, or township governments, and Native American tribal governments (Federally recognized).

TRANSPORTATION

Airport Improvement Program (AIP)

The Airport Improvement Program (AIP) provides grants to public agencies — and, in some cases, to private owners and entities — for the planning and development of public-use airports that are included in the National Plan of Integrated Airport Systems (NPIAS). For large and medium primary hub airports, the grant covers 75 percent of eligible costs (or 80 percent for noise program implementation). For small primary, reliever, and general aviation airports, the grant covers 95 percent of eligible costs. AIP grants for planning, development, or noise compatibility projects are at or associated with individual public-use airports (including heliports and seaplane bases).

Public Lands Highways Discretionary (PLHD) Program

The Public Lands Highway Discretionary (PLHD) Program is described in 23 U.S.C. §§ 202, 203, and 204, and has been reauthorized and continued through March 31, 2012. The program is administered by the Federal Highway Administration's Federal Lands Highway Office. PLHD funds are available for any kind of transportation project eligible for assistance under Title 23, United States Code, that is within, adjacent to, or provides access to Federal lands or facilities. PLHD funds are available for transportation planning, research, engineering, and construction of the highways, roads, and parkways, and of transit facilities within the Federal public lands. PLHD funds are also available for operation and maintenance of transit facilities located on Federal public lands. State departments of transportation may apply directly and, Federal Land Management Agencies, metropolitan planning organizations, local governments, and tribal governments may apply through States as sub-recipients.

Transportation, Community, and System Preservation Program

The Transportation, Community, and System Preservation (TCSP) Program is authorized by section 1117 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy For Users (SAFETEA-LU, Pub. L. 109-59), and has been reauthorized and continued through March 31, 2012. The program provides funding for a comprehensive initiative including planning grants, implementation grants, and research to investigate and address the relationships among transportation, community, and system preservation plans and practices and identify private sector-based initiatives to improve those relationships. Entities eligible to apply for funding: States, metropolitan planning organizations, local governments, and tribal governments are eligible for TCSP Program discretionary grants.

Deadline: January 6, 2012

Truck Parking Facilities Discretionary Program

The Truck Parking Facilities Discretionary Program is authorized in Section 1305 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU, Pub. L. 109-59). SAFETEA-LU directed the Secretary of Transportation to establish a pilot program to address the shortage of long-term parking for commercial motor vehicles (CMV) on the National Highway System. The program has been reauthorized and continued through March 31, 2012. Section 1305 of SAFETEA-LU authorizes a wide range of eligible projects and activities, ranging from construction of commercial motor vehicle spaces and other capital improvements that facilitate CMV parking including the use of intelligent transportation systems (ITS) technology to increase information on the availability of both public and private CMV parking spaces. For purposes of this program, long-term parking is defined as parking available for 10 or more consecutive hours. States, metropolitan planning Organizations, or local governments are eligible to apply for funds under this program.

Deadline: January 6, 2012

Value Pricing Pilot Program

The Value Pricing Pilot (VPP) Program is authorized by Section 1012(b) of the Intermodal Surface Transportation Efficiency Act (ISTEA) (Pub. L. 102-240), as amended by section 1216(a) of the Transportation Equity Act (TEA-21) (Pub. L. 105-178), and section 1604(a) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) (Pub. L. 109-594). Value pricing encompasses a variety of strategies to manage congestion on highways, including tolling of highway facilities through congestion pricing, as well as other strategies that do not involve tolls, such as mileage-based car insurance and parking pricing. Under the VPP Program, the Secretary of Transportation may enter into cooperative agreements with up to 15 State or local governments or other public authorities to establish, maintain, and monitor VPP programs, each including an unlimited number of projects. Entities eligible to apply for funding: States, local governments, and public authorities are eligible to apply for funding under the VPP Program, but FHWA strongly prefers applications to be submitted through State departments of transportation, since that would allow the potential for multiple VPP program projects within a State counting as only one of the 15 allowable partnerships.

Deadline: January 6, 2012

VETERANS

McCormick Foundation: McCormick Veterans Program

The McCormick Veterans Program honors the service of America's veterans by supporting nonprofit organizations that assist veterans in overcoming their unique challenges and successfully re-entering life at home and work. Grants of \$5,000 to \$250,000 are provided to organizations that focus on one of the following five key areas relevant to veterans: mental health (including traumatic brain injury, Post Traumatic Stress Disorder, and traumatic injuries); family issues (including psychological support for family members of veterans suffering from injuries); shelter and homelessness (including programs to help homeless veterans or provide special needs housing); job and career development (including job training, counseling, and resume preparation); and legal challenges facing our veterans.

Letters of inquiry may be submitted throughout the year.

YOUTH

Youth Social Settings

The program is designed to support high-quality research projects that address the foundation's current research interests — enhancing the understanding of how youth social settings work, how they affect youth development, and how they can be improved; and when, how, and under what conditions research evidence is used in policy and practice that affect youth, and how its use can be improved. Social settings are defined as the social environments in which youth experience daily life. These include environments with clear boundaries such as classrooms, schools, and youth-serving organizations; and those with less prescribed boundaries such as neighborhoods or other settings in which youth interact with peers, family members, and other adults. To be eligible for consideration, applicants must be employed at a nonprofit institution.

James Irvine Foundation Linked Learning Grant

The goal of the Youth program is to increase the number of low-income youth in California who complete high school on time and attain a postsecondary credential by the age of 25. Irvine seeks to transform high school education in California by making Linked Learning available to a majority of low-income youth and across all socioeconomic groups. Our plan begins with developing and refining the Linked Learning approach, demonstrating its viability at the school and district levels and scaling up for statewide adoption of comprehensive Linked Learning systems.
